SE-EMAR 147

Aircraft Maintenance Training Organisations
Särskilda bestämmelser - SE-EMAR 147

SE-EMAR 147 – Utbildningsorganisationer för luftfartygsunderhåll (Aircraft Maintenance Training Organisations)

1 March 2020
Särskilda bestämmelser - SE-EMAR 147,
Preface

This SE-EMAR 147 edition is issued in accordance with regulation FFS 2019:10. SE-EMAR 147 is applicable for the Aircraft Maintenance Training Organisations.

The regulation FFS 2019:10 is applicable for all organisations approved according to this SE-EMAR.

However:

• The intention is that a non-governmental organisation that complies with this SE-EMAR is considered to be compliant with the regulation FFS 2019:10 without any additional requirements.

This SE-EMAR 147 edition (Requirements, Acceptable Means of Compliance (AMC) and Guidance Material (GM)) is based on the EMAR 147.

The content of this SE-EMAR 147 is arranged as follows:

• Requirements appear first.
  The requirements are the special provisions in accordance with FFS 2019:10 chapter 1, paragraph 6.
• Followed by the related Acceptable Means of Compliance (AMC) and Guidance Material (GM) paragraphs.

All elements are also color-coded and can be identified according to the table below:

Requirements

Acceptable Means of Compliance (AMC)

Guidance Material (GM)

Identification of the tailoring

• The tailoring from EMAR are identified by grey background and a frame.
• If completely new requirement, AMC or GM has been created, this is identified by inclusion of “(SE)” after the title.

Note: When reference to “EMAR” in this document, it shall be read as a reference to SE-EMAR (21, M, 145, 66 or 147).

Särskilda bestämmelser - SE-EMAR 147

(1 March 2020)
SECTION A TECHNICAL REQUIREMENTS

SUBPART A - GENERAL

147.A.05 Scope
This section establishes the requirements to be met by an Organisation seeking approval as a Maintenance Training Organisation (MTO) to conduct training and examination as specified in EMAR 66.

147.A.10 General
An MTO shall be a legal entity, a part of a legal entity or part of a military organisation.

GM 147.A.10 General
Such an MTO may conduct its activity from more than one address.

147.A.15 Application
(a) An application for an approval or for the amendment of an existing approval shall be made to the National Military Airworthiness Authority (NMAA) in an agreed form and manner.

(b) An application for or for the change to an approval shall include the following information:
1. The registered name and address of the applicant;
2. The address of the MTO requiring the approval or change to the approval;
3. The intended scope of approval or change to the scope of approval;
4. The name and signature of the Accountable Manager;
5. The date of application.

AMC 147.A.15 Application
The application form should contain the information required in the EMAR Form 12 (see Appendices to AMC Appendix IV).
SUBPART B - ORGANISATIONAL REQUIREMENTS

147.A.100 Facility requirements

(a) The size and structure of facilities shall ensure protection from the prevailing weather elements and proper operation of all planned training and examination.

(b) Fully enclosed appropriate accommodation shall be provided for the instruction of theory and the conduct of knowledge examinations.

1. The maximum number of students undergoing knowledge training during any training session shall not exceed a level conducive to an effective learning environment.

2. The size of accommodation for examination purposes shall be such that no student can read the paperwork or computer screen of any other student from his/her position during examinations.

(c) The paragraph (b) accommodation environment shall be maintained such that students are able to concentrate on their studies or examination as appropriate, without undue distraction or discomfort.

(d) In the case of a basic training course, basic training workshops and/or maintenance facilities separate from training classrooms shall be provided for practical instruction appropriate to the planned training course. If, however, the MTO is unable to provide such facilities, arrangements may be made with another organisation to provide such workshops and/or maintenance facilities, in which case a written agreement shall be made with such organisation specifying the conditions of access and use thereof. The NMAA shall require access to any such organisation and the written agreement shall specify this access.

(e) In the case of a Military Aircraft Type/Task Training course, access shall be provided to appropriate facilities containing examples of aircraft type as specified in EMAR 147.A.115(d).

(f) The maximum number of students undergoing practical training during any training session shall not exceed 15 per supervisor or assessor.

(g) Office accommodation shall be provided for instructors, knowledge examiners and practical assessors of a standard to ensure that they can prepare for their duties without undue distraction or discomfort.

(h) Secure storage facilities shall be provided for examination papers and training records. The storage environment shall be such that documents remain in good condition for the retention period as specified in EMAR 147.A.125. The storage facilities and office accommodation may be combined, subject to adequate security. The requirements of this paragraph are equally applicable to other storage media (e.g. electronic etc.)

(i) A library shall be provided containing all technical material appropriate to the scope and level of training undertaken.
**AMC 147.A.100(b) Facility requirements**

1. The maximum number of students undergoing knowledge training during any training session should not normally exceed 28. In cases where it is necessary to exceed this number, the NMAA is to be informed and the MTO should submit evidence of how an ‘effective learning environment’ is being maintained with this larger number of students.

**AMC 147.A.100(d) Facility requirements**

1. In the context of this paragraph, ‘another organisation’ means any other organisation with which the MTO has a formal agreement for the provision of practical training facilities. This organisation’s details should be included in Section 2.8 of the MTOE.

**AMC 147.A.100(i) Facility requirements**

1. For approved basic maintenance training courses this means holding and ensuring reasonable access to copies of all national military aviation legislation, examples of typical aircraft maintenance manuals and service bulletins and Airworthiness Directives (or their national equivalents), aircraft and component records, release documentation, procedures manuals and aircraft maintenance programmes.

2. Except for the national military aviation regulations, the remainder of the documentation should represent typical examples of military aircraft and cover both aeroplanes and helicopters as appropriate for the nation. Avionic and armaments documentation should cover a representative range of available equipment that will be encountered within the pMS. All documentation should be reviewed and updated on a regular basis.

**GM 147.A.100(i) Facility requirements**

Where the organisation has an existing library of regulations, manuals and documentation required by another EMAR, it is not necessary to duplicate such a facility subject to student access being under controlled supervision.

**147.A.105 Personnel requirements**

(a) The MTO shall appoint an Accountable Manager who has corporate authority for ensuring that all training commitments can be carried out to the standard required by EMAR 147. The Accountable Manager shall:

1. Ensure that all necessary resources are available to accomplish training commitments in accordance with EMAR 147.A.130 (a) to support the organisation approval.

2. Establish and promote the quality policy specified in EMAR 147.A.130(b).

3. Demonstrate a basic understanding of this EMAR.

(b) A person or group of persons, whose responsibilities include ensuring that the MTO is in compliance with the requirements of this EMAR, shall be nominated. Such person(s) shall be responsible to the Accountable Man-
ager. The senior person or one person from the group of persons may also be the Accountable Manager subject to meeting the requirements for the Accountable Manager as defined in paragraph (a).

(c) The MTO shall contract/appoint sufficient staff to plan/perform knowledge and practical training, conduct knowledge examinations and practical assessments in accordance with the approval.

(d) By derogation to paragraph (c), when another organisation is used to provide practical training and assessments, such other organisation's staff may be nominated to carry out practical training and assessments.

(e) Any person may carry out any combination of the roles of instructor, knowledge examiner and practical assessor, subject to compliance with paragraph (f).

(f) The experience and qualifications of instructors, knowledge examiners and practical assessors shall be established in accordance with criteria published by the NMAA or in accordance with a procedure and to a standard agreed by the NMAA.

(g) The instructors, knowledge examiners and practical assessors shall be specified in the MTO Exposition (MTOE) for the acceptance of such staff.

(h) Instructors and knowledge examiners shall undergo updating training at least every 24 months relevant to current technology, practical skills, human factors and the latest training techniques appropriate to the knowledge being trained or examined.

**AMC 147.A.105 Personnel requirements**

1. The larger MTO (an organisation with the capacity to provide training for 50 students or more) should appoint a training manager with the responsibility of managing the MTO on a day-to-day basis. Such person could also be the Accountable Manager. In addition, the MTO should appoint a quality manager with the responsibility of managing the quality system as specified in EMAR 147.A.130(b) and an examination manager with the responsibility of managing the relevant EMAR 147 Subpart C or Subpart D examination system. Such person(s) may also be an instructor and/or examiner.

2. The smaller MTO (an organisation with the capacity to provide training for less than 50 students) may combine any or all of the subparagraph (1) positions subject to the NMAA verifying and being satisfied that all functions can be properly carried out in combination.

3. When the organisation is also approved against other EMARs which contain some similar functions, then such functions may be combined.

**AMC 147.A.105(b) Personnel requirements**

With the exception of the Accountable Manager, an EMAR Form 4 should be completed for each person nominated to hold a position required by EMAR 147.A.105(b). EMAR Form 4 is contained within the EMAR Forms document.
AMC 147.A.105(c) Personnel requirements
The MTO should have a core of permanently employed staff to undertake the minimum amount of maintenance training proposed but may contract, on a part-time basis, instructors for subjects which are only taught on an occasional basis.

AMC 147.A.105(f) Personnel requirements
1. Any person currently accepted by the NMAA in accordance with the national military aviation regulations in force prior to a date established in national regulation for the implementation of the requirements of EMAR 147 may continue to be accepted in accordance with EMAR 147.A.105(f).

Paragraph 3 of Appendix III to AMC of EMAR 66 provides criteria to establish the qualification of assessors.

2. Examiners should demonstrate a clear understanding of the examination standard required by EMAR 66 and have a responsible attitude to the conduct of examinations such that the highest integrity is ensured.

GM 147.A.105(f) Personnel requirements
It is recommended that potential instructors be trained in instructional techniques.

GM 147.A.105 (g) Personnel requirements
Moved to AMC 147.A.105(f).

AMC 147.A.105(h) Personnel requirements
1. Updating training should normally be of 35 hours duration but may be adjusted to the scope of training of the MTO and particular instructor/examiner.

2. Records should show for each instructor/knowledge examiner when the updating training was scheduled and when it took place.

GM 147.A.105(h) Personnel requirements
1. Moved to AMC 147.A.105(h)2.

2. The updating training may be subdivided during the 24 months into more than one element and may include such activities as attendance at relevant lectures and symposiums.

147.A.110 Records of instructors, examiners and assessors
(a) The MTO shall maintain a record of all instructors, knowledge examiners and practical assessors for a minimum period of 5 years after termination of their employment or assignment within the MTO. These records shall reflect the experience and qualification, training history and any subsequent training undertaken.
(b) Terms of reference shall be drawn up for all instructors, knowledge examiners and practical assessors.

**AMC 147.A.110 Records of instructors, examiners and assessors**

1. The following minimum information relevant to the scope of activity should be kept on record in respect of each instructor, knowledge examiner and practical assessor:
   (a) Full Name;
   (b) Rank/Grade (if applicable);
   (c) Date of birth;
   (d) Service/Personnel number;
   (e) Experience;
   (f) Qualifications;
   (g) Training history (before entry);
   (h) Subsequent training;
   (i) Scope of activity;
   (j) Starting date of employment/contract/posting into MTO;
   (k) If appropriate - ending date of employment/contract/posting out of MTO;
   (l) Security clearance (where appropriate).

2. The record may be kept in any format but should be under the control of the MTO’s quality system.

3. Persons authorised to access the system should be maintained at a minimum to ensure that records cannot be altered in an unauthorised manner or that such confidential records become accessible to unauthorised persons.

4. The NMAA, or qualified entity acting on behalf of the NMAA, is to be considered as an ‘authorised person’ when investigating the records system for initial and continued approval or when the NMAA has cause to doubt the competence of a particular person.

**GM 147.A.110 Records of instructors, examiners and assessors**

Instructors, knowledge examiners and practical assessors should be provided with a copy of their terms of reference.

**147.A.115 Instructional equipment**

(a) Each classroom shall have appropriate presentation equipment of a standard that ensures students can easily read presentation text/drawings/diagrams and figures from any position in the classroom. Presentation equipment may include representative synthetic training devices to assist students in their understanding of the particular subject matter where such devices are considered beneficial for such purposes.
(b) The basic training workshops and/or maintenance facilities as specified in EMAR 147.A.100(d) shall have all tools and equipment necessary to perform the approved scope of training.

(c) The basic training workshops and/or maintenance facilities as specified in EMAR 147.A.100(d) shall have an appropriate selection of aircraft, engines, aircraft parts, avionic equipment, armaments, escape systems and other relevant military-specific systems.

(d) The Military Aircraft Type Training organisation as specified in EMAR 147.A.100(e) shall have access to the appropriate aircraft type. Synthetic training devices may be used when such synthetic training devices ensure adequate training standards.

AMC 147.A.115(c) Instructional equipment

1. An appropriate selection of aircraft parts means appropriate in relation to the particular subject module or submodule of EMAR 66 being instructed. For example, the turbine engine module should require the provision of sufficient parts from different types of turbine engine to show what such parts look like, what the critical areas are from a maintenance viewpoint and to enable disassembly/assembly exercises to be completed.

2. ‘Appropriate aircraft, engines, aircraft parts, avionic equipment, armaments, escape systems and other relevant military-specific systems’ means appropriate in relation to the particular subject module or submodule of EMAR 66 being instructed. For example, Category B2 avionic training should require, amongst other equipment, access to different navigation systems such that maintenance and system functioning can be observed and therefore more fully understood by the student in the working environment.

3. Moved to AMC 147.A.115(d).

GM 147.A.115(a) Instructional equipment

1. Synthetic training devices are working models of a particular system or component and include computer simulations.

2. NOT APPLICABLE.

AMC 147.A.115(d) Instructional equipment

“Access” should be interpreted to mean, in conjunction with the facilities requirement of EMAR 147.A.100(d), that there may be an agreement with an EMAR 145 Approved Maintenance Organisation to access the aircraft type, related parts, etc.
147.A.120 Maintenance training material
(a) Maintenance training course material shall be provided to the student and cover as applicable:
1. The basic knowledge syllabus specified in EMAR 66 for the relevant Military Aircraft Maintenance Licence (MAML) category or subcategory; and
2. The type course content required by EMAR 66 for the relevant aircraft type and MAML category or subcategory.
(b) Students shall have access to examples of maintenance documentation and technical information in the library as specified in EMAR 147.A.100(i).

AMC 147.A.120(a) Maintenance training material
Training course notes, diagrams and any other instructional material should be accurate. Where an amendment service is not provided, a written warning to this effect should be given.

147.A.125 Records of students
The MTO shall keep all student training, examination and assessment records for at least twenty years following completion of the particular student’s course.

AMC 147.A.125 Records of students
In addition to each student’s training, examination and assessment records, the content of the course(s) undertaken by each student (e.g. syllabus, together with the amendment state of the course content as detailed in the MTOE Item 4.2) should also be retained.

147.A.130 Training procedures and quality system
(a) The MTO shall establish procedures acceptable to the NMAA to ensure proper training standards and compliance with all relevant requirements in this EMAR.
(b) The MTO shall establish a quality system including:
1. An independent audit function to monitor training standards, the integrity of knowledge examinations and practical assessments, compliance with and adequacy of the procedures; and
2. A feedback system of audit findings to the person(s) and ultimately to the Accountable Manager referred to in EMAR 147.A.105(a) to ensure, as necessary, preventive and corrective actions.
### AMC 147.A.130(b) Training procedures and quality system

1. The independent audit procedure should ensure that all aspects of EMAR 147 compliance should be checked at least once in every 12 months and may be carried out as one complete single exercise or subdivided over a 12-month period in accordance with a scheduled plan.

2. In a small MTO (an organisation with the capacity to provide training for less than 50 students) the independent audit function may be contracted to another MTO approved under EMAR 147 by an arrangement acceptable to the NMAA, or to a competent person acceptable to the NMAA. Where the small MTO chooses to contract the audit function, the NMAA should specify the audit periodicity.

3. Where the MTO is part of an organisation that is also approved to another EMAR requiring a quality system, then such quality systems may be combined.

4. When training or examination is carried out under the 'subcontract control system' (see EMAR 147.A.145):
   - (i) a pre-audit procedure should be established whereby the EMAR 147 MTO should audit a prospective subcontractor to determine whether the services of the subcontractor meet the intent of EMAR 147. The pre-audit procedure should focus on establishing compliance with the training and examination standards set out in EMAR 147 and EMAR 66.
   - (ii) a renewal audit of the subcontractor should be performed at least once every 12 months to ensure continuous compliance with the EMAR 147 standard.
   - (iii) the subcontract control procedure should record audits of the subcontractor and have a corrective action follow-up plan.

5. The independence of the audit system should be established by always ensuring that audits are carried out by personnel not responsible for the function or procedure being checked.

6. By derogation to 4(ii) the period may be extended up to 24 month. Such extension should be justified and in accordance with a procedure approved in the exposition.

### GM 147.A.130(b) Training procedures and quality system

1. The primary objective of the quality system is to enable the MTO to satisfy itself that it can deliver properly trained students and that the MTO remains in compliance with EMAR 147.

2. The independent audit is a process of routine sample checks of all aspects of the MTO's ability to carry out all training and examinations to the required standards. It represents an overview of the complete training system and does not replace the need for instructors to ensure that they carry out training to the required standard.
3. A report should be raised each time an audit is carried out describing what was checked and any resulting findings. The report should be sent to the affected department(s) for rectification action giving target rectification dates. Possible rectification dates may be discussed with the affected department(s) before the quality department confirms such dates on the report. The affected department(s) should rectify any findings and inform the quality department of such rectification.

4. A large MTO (an organisation with the capacity to provide training for 50 students or more) should have a dedicated quality audit group whose sole function is to conduct audits, raise finding reports and follow-up to ensure that findings are being rectified. For the small MTO (an organisation with the capacity to provide training for less than 50 students) it is acceptable to use competent personnel from one section/department not responsible for the function or procedure to check the section/department that is responsible, subject to the overall planning and implementation being under the control of the quality manager.

5. The management control and follow-up system should not be contracted to outside persons. The principal function is to ensure that all findings resulting from the independent audit are corrected in a timely manner and to enable the Accountable Manager to remain properly informed of the state of compliance. Apart from rectification of findings, the Accountable Manager should hold routine meetings to check progress on rectification, except that in the large MTO such meetings may be delegated on a day-to-day basis to the quality manager as long as the Accountable Manager meets at least once per year with the senior staff involved to review the overall performance.

147.A.135 Examinations

(a) The examination staff shall ensure the security of all questions.

(b) Any student found during a knowledge examination to be cheating or in possession of material pertaining to the examination subject other than the examination papers and associated authorised documentation shall be disqualified from taking the examination. In such a case the student shall not take any examination for at least 12 months after the date of the incident unless the NMAA approves otherwise. The NMAA shall be informed of any such incident together with the details of any enquiry within one calendar month.

(c) Any examiner found during a knowledge examination to be providing question answers to any student being examined shall be disqualified from acting as an examiner and the examination declared void. The NMAA shall be informed of any such occurrence within one calendar month.

AMC 147.A.135 Examinations

1. Examinations may be computer- or hard-copy-based or a combination of both.
2. The actual questions to be used in a particular examination should be determined by the examiners.

**AMC 147.A.135(b) Examinations**

If the NMAA approves a period of less than 12 months, this approval should be provided in writing to the MTO and kept within the student's records as detailed in EMAR 147.A.125.

**GM 147.A.135(c) Examinations**

The NMAA will determine when or if the disqualified examiner may be reinstated.

**147.A.140 Maintenance Training Organisation Exposition (MTOE)**

(a) The MTO shall provide an exposition for use by the MTO describing the organisation and its procedures and containing the following information:

1. A statement signed by the Accountable Manager confirming that the MTOE and any associated manuals define the MTO's compliance with this EMAR and shall be complied with at all times. Where the Accountable Manager is not the Chief Executive Officer or the senior military commander of the organisation, the Chief Executive Officer or the senior military commander of the organisation shall countersign that statement.

2. The title(s) and name(s) of the person(s) nominated in accordance with EMAR 147.A.105(b).

3. The duties and responsibilities of the person(s) specified in subparagraph (a) 2, including matters on which they may deal directly with the NMAA on behalf of the MTO.

4. A MTO chart showing associated lines of responsibility of the person(s) specified in subparagraph (a)2.

5. A list of the instructors, knowledge examiners and practical assessors.

6. A general description of the training and examination facilities located at each address specified in the MTO's approval certificate, and if appropriate any other location, as required by EMAR 147.A.145(b).

7. A list and details of the maintenance training courses which form the extent of the approval.

8. The MTO's exposition amendment procedure.

9. The MTO's procedures, as required by EMAR 147.A.130(a).

10. The MTO's control procedure, as required by EMAR 147.A.145(c), when authorised to conduct training, examination and assessments in locations different from those specified in EMAR 147.A.145(b).

11. A list of the locations pursuant to EMAR 147.A.145(b).

12. A list of organisations, if appropriate, as specified in EMAR 147.A.145(d).

(b) The MTO's exposition and any subsequent amendments shall be approved by the NMAA.
(c) Notwithstanding paragraph (b) minor amendments to the exposition may be approved through an exposition procedure (also called indirect approval).

(d) Where an MTO has an extant EASA Part 147 approval, those parts of the organisation's EASA Part 147 exposition that are equally applicable to satisfy the EMAR 147 requirements will generally be accepted by the NMAA as equivalent in respect of the EMAR 147 exposition. In this case it is permissible that only those regulations that are military specific need be addressed in the EMAR 147 exposition; those regulations covered by read-across of the sections of the EASA exposition document shall be identified and the EASA document clause reference quoted.

**AMC 147.A.140 Maintenance Training Organisation Exposition (MTOE)**

1. The information detailed in Appendix I to the AMCs should be included in the MTOE.
2. When the MTO, or organisation it is part of, is approved in accordance with any other EMAR or EASA approval which also requires an exposition, the exposition required by the other EMAR or EASA approval may form the basis of the MTOE in a combined document, as long as the other exposition contains the information required by EMAR 147.A.140 and a cross-reference index is included based upon Appendix I.
3. When training or examination is carried out under the 'subcontract control system' (see EMAR 147.A.145), the MTOE should contain a specific procedure on the control of subcontractor(s) as per Appendix I item 2.18 plus a list of subcontractor(s) as required by EMAR 147.A.140(a)12 and detailed in Appendix I item 1.7.
4. NOT APPLICABLE.

**AMC No 2 to AMC 147.A.140 Maintenance Training Organisation Exposition (MTOE) (SE)**

The MTOE should be written in the Swedish or the English language.

**GM 147.A.140(c) Maintenance Training Organisation Exposition (MTOE)**

The quality manager should be responsible for monitoring the amendment of the MTOE, unless otherwise agreed by the NMAA, including associated procedures manuals and submission of the proposed amendments to the NMAA. However, the NMAA may agree via a procedure stated in the amendment section of the MTOE that some defined class of amendments may be incorporated without prior approval by the NMAA.
Privileges of the Maintenance Training Organisation

(a) The MTO may carry out the following as permitted by and in accordance with the MTOE:

1. Basic training courses to the EMAR 66 syllabus, or part thereof.
2. Aircraft type/task training courses in accordance with EMAR 66, or part thereof.
3. The examinations on behalf of the NMAA, including the examination of students who did not attend the basic or Military Aircraft Type Training course at the MTO. (The procedures for examinations are detailed in EMAR 66.B.200).
4. The issue of certificates in accordance with Appendix III following successful completion of the approved basic or Military Aircraft Type Training courses and examinations specified in subparagraphs (a)(1), (a)(2) and (a)(3), as applicable.

(b) Training, knowledge examinations and practical assessments may only be carried out at the locations identified in the approval certificate and/or at any location specified in the MTOE.

(c) By derogation to paragraph (b), the MTO may only conduct training, knowledge examinations and practical assessments in locations different from the paragraph (b) locations in accordance with a control procedure specified in the MTOE. Such locations need not be listed in the MTOE.

(d) 1. The MTO may subcontract the conduct of basic theoretical training, Military Aircraft Type Training and related examinations to a non-MTO only when under the control of the MTO quality system.

2. The subcontracting of basic theoretical training and examination is limited to EMAR 66 Appendix I modules 1,2,3,4,5,6,8,9 and 10.

3. The subcontracting of Military Aircraft Type Training and examination is limited to powerplant, avionic systems, armaments, escape systems and other relevant military-specific systems.

(e) An organisation shall not be approved to conduct examinations unless approved to conduct the corresponding training.

(f) NOT APPLICABLE.

(g) By derogation to subparagraph (d)(3), the subcontracting of Military Aircraft Type Training complete courses may be approved by SE-MAA. Such approval must be justified and in accordance with a procedure approved in the exposition.
AMC 147.A.145(d) Privileges of the Maintenance Training Organisation

1. When training or examination is carried out under the 'subcontract control system', it means that for the duration of such training or examination, the EMAR 147 approval has been temporarily extended to include the subcontractor. It therefore follows that those parts of the subcontractor’s facilities, personnel and procedures involved with the EMAR 147 MTO’s students should meet the requirements of EMAR 147 for the duration of that training or examination and it remains the EMAR 147 MTO’s responsibility to ensure such requirements are satisfied.

2. The MTO approved under EMAR 147 is not required to have complete facilities and personnel for training that it needs to subcontract but it should have its own expertise to determine that the subcontractor meets the EMAR 147 standards. Particular attention should be given to ensuring that the training that is delivered also meets the requirements of EMAR 66 and that the aircraft technologies are appropriate.

3. The contract between the MTO approved under EMAR 147 and the subcontractor should contain:
   ○ a provision for the NMAA to have right of access to the subcontractor;
   ○ a provision that the subcontractor must inform the EMAR 147 approved MTO of any change that may affect its EMAR 147 approval, before any such change takes place.

GM 147.A.145(d) Privileges of the Maintenance Training Organisation

1. Moved to AMC 147.A.130(b) paragraph 4(i).

2. The fundamental reason for allowing an MTO approved under EMAR 147 to subcontract certain basic theoretical training courses is to permit the approval of MTOs which may not have the capacity to conduct training courses on all EMAR 66 modules.

3. The reason for allowing the subcontracting of only training modules 1 to 6 and 8 to 10 of Appendix I to EMAR 66 is that most of the related subjects can generally also be taught by training organisations not specialised in aircraft maintenance and the practical training element as specified in EMAR 147.A.200 does not apply to them. However, training modules 7, 11 to 17 and 50 to 55 of Appendix I to EMAR 66 are specific to aircraft maintenance and include the practical training element as specified in EMAR 147.A.200. The intent of the “limited subcontracting” option as specified in EMAR 147.A.145 is to grant EMAR 147 approvals only to those organisations having themselves at least the capacity to teach on-aircraft maintenance specific matters.

GM 147.A.145(d)3 Privileges of the Maintenance Training Organisation

In the case of Military Aircraft Type Training and examination, the reason for restricting subcontracting to powerplant, avionic systems, armaments,
escape systems and other relevant military-specific systems is that the related subjects can generally also be imparted by certain organisations specialised in these domains such as the (Military) Type Certificate Holder of the powerplant or the OEMs of these avionic systems, armaments, escape systems and other relevant military-specific systems. In such a case, the Military Aircraft Type Training course should make clear how the interfaces with the aircraft are addressed and by whom (the subcontracted organisation or the EMAR 147 MTO itself).

<table>
<thead>

<th>AMC 147.A.145(f) Privilages of the Maintenance Training Organisation</th>
</tr>
</thead>
<tbody>
<tr>
<td>NOT APPLICABLE.</td>
</tr>
</tbody>
</table>

**147.A.150 Changes to the Maintenance Training Organisation**

(a) The MTO shall notify the NMAA of any proposed changes to the organisation that affect the approval before any such change takes place, in order to enable the NMAA to determine continued compliance with this EMAR and to amend if necessary the MTO approval certificate.

(b) The NMAA may prescribe the conditions under which the MTO may operate during such changes unless the NMAA determines that the MTO approval must be suspended.

(c) Failure to inform the NMAA of such changes may result in suspension or revocation of the MTO approval certificate backdated to the actual date of the changes.

**147.A.155 Continued validity of approval**

(a) An approval shall be issued for an unlimited duration. It shall remain valid subject to:

1. The MTO remaining in compliance with this EMAR, in accordance with the provisions related to the handling of findings as specified under EMAR 147.B.130; and
2. The NMAA being granted access to the MTO to determine continued compliance with this EMAR; and
3. The certificate not being surrendered or revoked.

(b) Upon surrender or revocation, the approval shall be returned to the NMAA.

<table>
<thead>
<tr>
<th>AMC 147.A.155(a)2 Continued validity of approval</th>
</tr>
</thead>
<tbody>
<tr>
<td>In addition to being granted access to the MTO to determine continued compliance, the NMAA should also be granted access to any organisation carrying out training (and, if applicable, examination) on behalf of the MTO under the ‘subcontract control system’ as specified at AMC 147.A.145(d).</td>
</tr>
</tbody>
</table>
147.A.160 Findings of non-compliance

(a) A level 1 finding is one or more of the following:

1. Any significant non-compliance with the examination process which would invalidate the examination(s),
2. Failure to give the NMAA access to the MTO's facilities during normal operating hours after two written requests,
3. The lack of an Accountable Manager,
4. A significant non-compliance with the training process.

(b) A level 2 finding is any non-compliance with the training process other than level 1 finding.

(c) After receipt of notification of findings according to EMAR 147.B.130, the holder of the MTO approval shall define a corrective action plan and demonstrate corrective action to the satisfaction of the NMAA within a period agreed with this authority.

SUBPART C - APPROVED BASIC TRAINING COURSE

147.A.200 The approved basic training course

(a) The approved basic training course shall consist of knowledge training, knowledge examination, practical training and a practical assessment.

(b) The knowledge training element shall cover all subjects of the relevant MAML category as specified in EMAR 66.

(c) The knowledge examination element shall cover a representative cross section of all subjects from the paragraph (b) training element.

(d) The practical training element shall cover the practical use of common tooling/equipment, the disassembly/assembly of a representative selection of aircraft parts and the participation in representative maintenance activities being carried out relevant to the particular EMAR 66 complete module.

(e) The practical assessment element shall cover the practical training and determine whether the student is competent at using tools and equipment and working in accordance with maintenance manuals.

(f) The duration and minimum number of practical training hours to be completed on basic training courses shall be in accordance with Appendix I.

(g) The duration of conversion courses between (sub)categories shall be determined by the MTO through an assessment of the basic training syllabus and the related practical training needs.

AMC 147.A.200(b) The approved basic training course

Each MAML category or subcategory basic training course may be subdivided into modules or submodules of knowledge and may be intermixed...
with the practical training elements subject to the required time elements of EMAR 147.A.200 (f) and (g) being satisfied.

AMC 147.A.200(d) The approved basic training course
1. NOT APPLICABLE.
2. At least 30% of the practical training element should be carried out in a realistic maintenance working environment.

AMC 147.A.200(f) The approved basic training course
1. In order to follow pedagogical and human factors principles, the maximum number of training hours per day for the theoretical training should not be more than 6 hours. A training hour means 60 minutes of tuition excluding any breaks, examination, revision, preparation and aircraft visits. In exceptional cases, the NMAA may allow deviation from this standard when it is properly justified that the proposed number of hours follows pedagogical and human factors principles. These principles are especially important in those cases where:
   ○ Theoretical and practical training are performed at the same time;
   ○ Training and normal maintenance duty/apprenticeship are performed at the same time.
2. The minimum participation time for the student to meet the objectives of the course should not be less than 90% of the tuition hours. Additional training may be provided by the MTO in order to meet the minimum participation time. If the minimum participation defined for the course is not met, a certificate of recognition (see example at EMAR 147 Appendix III) should not be issued.

AMC 147.A.200(g) The approved basic training course
NOT APPLICABLE.

147.A.205 Basic knowledge examinations
Basic knowledge examinations shall:
(a) Be in accordance with the standard defined in EMAR 66.
(b) Be conducted without the use of training notes.
(c) Cover a representative cross section of subjects from the particular module of training completed in accordance with EMAR 66.

AMC 147.A.205 Basic knowledge examinations
The NMAA may accept that the MTO approved under EMAR 147 can conduct examination of students who did not attend an approved basic course at that MTO.
147.A.210 Basic practical assessment

(a) Basic practical assessments shall be carried out during the basic maintenance training course by the nominated practical assessors at the completion of each visit period to the practical workshops/maintenance facility.

(b) The student shall achieve an assessed pass with respect to EMAR 147.A.200(e).

AMC 147.A.210(a) Basic practical assessment

NOT APPLICABLE.

AMC 147.A.210(b) Basic practical assessment

An assessed pass for each student should be granted when the practical assessor is satisfied that the student meets the criteria of EMAR 147.A.200(e). This means that the student has demonstrated the capability to use relevant tools/equipment/test equipment as specified by the tool/equipment/test equipment manufacturer and the use of maintenance manuals, and the student can carry out the required inspection/testing without missing any defects, can readily identify the location of components and is capable of correct removal/fitment/adjustment of such components. The student is only required to carry out enough inspection/testing and component removal/fitment/adjustments to prove capability. The student should also show an appreciation of the need to ensure clean working conditions and the observance of safety precautions for the student and the product. In addition, the student should demonstrate a responsible attitude in respect to flight safety and the airworthiness of the aircraft.

Appendix III to AMC to EMAR 66 provides criteria for the competence assessment performed by the designated assessors (and their qualifications).

SUBPART D - AIRCRAFT TYPE/TASK TRAINING

147.A.300 Aircraft type/task training

An MTO shall be approved to carry out EMAR 66 aircraft type and/or task training or part thereof, subject to compliance with the standard specified in EMAR 66.A.45.

AMC 147.A.300 Military Aircraft Type/Task Training

Military Aircraft Type Training may be subdivided into airframe and/or powerplant and/or avionics/electrical systems and/or armaments/escape systems/other relevant military-specific systems type training courses. An MTO approved under EMAR 147 may be approved to conduct airframe type training only, powerplant type training only, avionics/electrical sys-
tems type training only, armaments/escape systems/other relevant military-specific systems type training only or any combination thereof.

1. Airframe type training course means a type training course including all relevant aircraft structure and electrical and mechanical systems excluding the powerplant.

2. Powerplant type training course means a type training course on the bare engine, including the build-up to an engine change unit.

3. The interface of the engine/airframe systems should be addressed by either airframe or powerplant type training course.

4. Avionics/electrical systems type training course means type training on avionics and electrical systems as determined by the NMAA.

5. Armaments/escape systems/other relevant military-specific systems type training means type training on all other military-specific systems not covered in sub-paragraphs 1-4 above, as determined by the NMAA.

147.A.305 Aircraft type examinations and task assessments

An MTO approved in accordance with EMAR 147.A.300 to conduct Military Aircraft Type Training or part thereof, shall conduct the related aircraft type examinations or aircraft task assessments specified in EMAR 66 subject to compliance with the aircraft type and/or task standard specified in EMAR 66.A.45.
SECTION B PROCEDURES FOR NATIONAL MILITARY AIRWORTHINESS AUTHORITIES

SUBPART A - GENERAL

147.B.05 Scope
This section establishes the administrative procedures which the NMAA shall follow when exercising its tasks and responsibilities regarding issuance, continuation, change, suspension or revocation of MTO approvals in accordance with the requirements of EMAR 147.

147.B.10 National Military Airworthiness Authority
(a) General
The participating Member States (pMS) shall designate their NMAA with allocated responsibilities for the issuance, continuation, change, suspension or revocation of a MTO approval. This NMAA shall establish documented procedures and an organisational structure.

(b) Resources
The NMAA shall be appropriately staffed to carry out the requirements as detailed in this section.

(c) Qualification and training
All staff involved in EMAR 147 approvals shall:
1. Be appropriately qualified and have all necessary knowledge, experience and training to perform their allocated tasks.
2. Have received training/continuation training on EMAR 147 and EMAR 66 where relevant, including their intended meaning and standard.

(d) Procedures
The NMAA shall establish procedures detailing how compliance with this Section B is accomplished.

The procedures shall be reviewed and amended to ensure continued compliance.
AMC 147.B.10(a) National Military Airworthiness Authority

1. In deciding upon the required organisational structure, the NMAA should review the number of certificates to be issued, the number and size of potential EMAR 147 approved MTOs within that pMS, as well as the level of military aviation activity, number and complexity of aircraft and the size of the pMS's military aviation forces.

2. The NMAA should retain effective control of important surveillance functions and not delegate them in such a way that EMAR 147 MTOs, in effect, regulate themselves in airworthiness matters.

3. The set-up of the organisational structure should ensure that the various tasks and obligations of the NMAA are not relying on individuals. That means that a continued and undisturbed fulfillment of these tasks and obligations of the NMAA should also be guaranteed in case of illness, accident or leave of individual employees.

AMC 147.B.10(c) National Military Airworthiness Authority

1. NMAA surveyors should have:

   1.1 practical experience and expertise in the application of aviation safety standards and safe operating practices;

   1.2 comprehensive knowledge of:

      a. relevant parts of national implementing rules/regulations, certification specifications, airworthiness codes and guidance material;

      b. the NMAA’s procedures;

      c. the rights and obligations of a surveyor;

      d. quality systems;

      e. continuing airworthiness management.

   1.3 training on auditing techniques;

   1.4 five years relevant work experience to be allowed to work as a surveyor independently. This may include, but should not be limited to, experience gained during training to obtain the sub-paragraph 1.5 (below) qualification;

   1.5 a relevant engineering degree or an aircraft maintenance technician qualification or training qualification with additional education. 'Relevant engineering degree' means an engineering degree from aeronautical, mechanical, electrical, electronic, avionic or other studies relevant to the maintenance and continuing airworthiness of aircraft/aircraft components;

   1.6 knowledge of a relevant sample of aircraft types;

   1.7 knowledge of maintenance training standards.

2. In addition to technical competency, surveyors should have a high degree of integrity, be impartial in carrying out their tasks, be tactful, and have a good understanding of human nature.
3. A programme for continuation training should be developed that ensures that the surveyors remain competent to perform their allocated tasks.

**AMC 147.B.10(d) National Military Airworthiness Authority**

The documented procedures should contain the following information:

(a) The pMS’s designation of the NMAA.

(b) The title(s) and name(s) of the manager(s) of the NMAA and their duties and responsibilities.

(c) Organisation chart(s) showing associated chains of responsibility of the senior persons.

(d) A procedure defining the qualifications for staff together with a list of staff authorised to sign certificates.

(e) A general description of the facilities.

(f) Procedures specifying how the NMAA ensures compliance with EMAR 147.

**147.B.15 DELETED**

**147.B.20 Record-keeping**

(a) The NMAA shall establish a system of record-keeping with minimum retention criteria that allows adequate traceability of the process to issue, continue, change, suspend or revoke each individual organisation approval.

(b) The records shall include as a minimum:

1. The application for an organisation approval, including the continuation thereof.
2. The NMAA continued oversight program including all audit records.
3. A copy of the organisation approval certificate including any change thereto.
4. A copy of the audit program listing the dates when audits are due and when audits were carried out.
5. Copies of all formal correspondence including EMAR Form 4 or equivalent.
6. Details of any exemption and enforcement action(s).
7. Any report from other authorities relating to the oversight of the MTO.
8. The MTOE and its amendments.

(c) The minimum retention period for the above records shall be four years.

(d) The NMAA may elect to use either a paper or computer system or any combination of both subject to appropriate controls.

**AMC 147.B.20 Record-keeping**

1. The record-keeping system should ensure that all records are accessible whenever needed within a reasonable time. These records should be organ-
ised in a consistent way throughout the NMAA (chronological, alphabetical order, etc.).

2. All records containing sensitive data regarding applicants or organisations should be stored in a secure manner with controlled access to ensure confidentiality of this kind of data.

3. All computer hardware used to ensure data backup should be stored in a different location from that containing the working data in an environment that ensures they remain in good condition. When hardware or software changes take place, special care should be taken that all necessary data continues to be accessible at least through the full period specified in EMAR 147.B.20.

### 147.B.25 Exemptions

(a) The NMAA may exempt State Schools from the following:

1. NOT APPLICABLE.
2. NOT APPLICABLE.
3. Having recourse to the independent audit part of a quality system subject to the operating of an independent schools inspectorate to audit the MTO at the frequency required by this EMAR.

(b) All exemptions accepted shall be recorded and retained by the NMAA.

### SUBPART B - ISSUE OF AN APPROVAL

This Subpart provides the requirements to issue or change an MTO approval.

### 147.B.110 Procedure for approval and changes to an approval

(a) Upon receipt of an application, the NMAA shall:

1. Review the MTOE; and
2. Verify the MTO’s compliance with the requirements of EMAR 147.

(b) All findings identified shall be recorded and confirmed in writing to the applicant.

(c) All findings shall be closed in accordance with point EMAR 147.B.130 before the approval is issued.

(d) The reference number shall be included on the approval certificate in a manner specified by the NMAA.

### AMC 147.B.110(a) Procedure for approval and changes to the approval

1. The audit should be conducted on the basis of checking the facility for compliance, interviewing personnel and sampling any relevant training course for its conduct and standard.
2. The audit report should be made on an EMAR Form 22 (see Appendix III).
AMC 147.B.110(b) Procedure for approval and changes to the approval

1. The reports should include the date each finding was cleared together with reference to the NMAA report or letter that confirmed the clearance.

2. Findings should be recorded on the audit report form with a provisional categorisation as a level 1 or 2. Subsequent to the audit visit that identified the particular findings, the NMAA should review the provisional finding levels, adjusting them if necessary and change the categorisation from “provisional” to “confirmed”.

GM 147.B.110 Procedure for approval and changes to the approval

1. NOT APPLICABLE.

2. The NMAA should determine how and by whom the audit should be conducted. For example, if the applicant is a large MTO, it will be necessary to determine whether one large team audit or a short series of small team audits or a long series of single person audits is most appropriate for the particular situation. A further consideration in the case of a combined EMAR 145/EMAR 147 organisation is the possibility to combine the audits.

3. Where it is intended that the MTO may conduct training and examinations away from the MTO address(es) in accordance with EMAR 147.A.145(c), then a sample audit of the process should be carried out by the NMAA from time to time to ensure that procedures are followed. For practical reasons such sample audits will need to be carried out when the training is actually being conducted away from the MTO address(es).

4. The auditing surveyor should ensure that they are always accompanied throughout the audit by a senior member of the MTO making application for an EMAR 147 approval. Normally this should be the proposed quality manager. The reason for being accompanied is to ensure that the MTO is fully aware of any findings during the audit. In any case, the proposed quality manager/senior member of the MTO should be debriefed at the end of the audit visit on the findings made during the audit.

5. There may be occasions when the auditing surveyor may find situations in the applicant's organisation on which he/she is unsure about compliance. In this case, the organisation should be informed about possible non-compliance at the time and the fact that the situation will be reviewed within the NMAA before a decision is made. The organisation should be informed of the decision within 2 weeks of the audit visit in writing if the decision is a confirmation of non-compliance. If the decision is a finding of being in compliance, a verbal confirmation to the organisation will suffice.
6. A change of name of the MTO requires the MTO to submit a new application as a matter of urgency stating that only the name of the MTO has changed including a copy of the MTOE with the new name. Upon receipt of the application and the MTOE, the NMAA should reissue the approval certificate.

7. A name change alone does not require the NMAA to audit the MTO, unless there is evidence that other aspects of the MTO have changed.

8. A change of Accountable Manager requires the MTO to submit such fact to the NMAA as a matter of urgency together with the amendment to the Accountable Manager exposition statement.

9. A change of any of the senior personnel specified in EMAR 147.A.105(b) requires the MTO to submit to the NMAA an EMAR Form 4 in respect of the particular person. If satisfied that the qualifications and experience meet the standard required by EMAR147, the NMAA should indicate acceptance in writing to the MTO.

10. A change in the MTOE requires the NMAA to establish that the procedures specified in the MTOE are in compliance with EMAR 147 and then to establish if these are the same procedures intended for use within the training facility.

11. Any change of location of the MTO requires the MTO to make a new application to the NMAA together with the submission of an amended MTOE. The NMAA should follow the procedure specified in EMAR 147.B.110(a) and (b) in so far as the change affects such procedure before issuing a new EMAR147 approval certificate.

12. The complete or partial reorganisation of an MTO should require the re-audit of those elements that have changed.

13. Any additional basic or Military Aircraft Type Training courses require the MTO to make a new application to the NMAA together with the submission of an amended MTOE. For basic training extensions, an additional sample of new examination questions relevant to the modules associated with the extension being sought will be required to be submitted. The NMAA should follow the procedure of paragraph 11 (above) in so far as the change affects such procedures unless the NMAA is satisfied that the MTO has a well-controlled procedure to qualify such change when it is not necessary to conduct the audit elements of the paragraph 11 procedure.

147.B.120 Continued validity procedure

(a) Each MTO shall be audited for compliance with this EMAR at periods not exceeding 24 months. This shall include the monitoring of at least one training course and one examination performed by the MTO.

(b) Findings shall be processed in accordance with EMAR 147.B.130.

(c) By derogation to point (a), the period can be extended up to 36 month. In such cases shall the extension be justified and recorded.
AMC 147.B.120(a) Continued validity procedure

1. Audits should be conducted to ensure the continuity of the approval; it is not necessary to sample all basic and Military Aircraft Type Training courses, but the NMAA should sample, as appropriate, one basic and one Military Aircraft Type Training course to establish that training is conducted in an appropriate manner. Nevertheless, the duration of the sampling for each course should not be less than 3 hours. Where no training course is being conducted during the audit, arrangements should be made to return at a later date to sample the conduct of a training course.

2. It is not necessary to sample all examinations associated with a training course but the NMAA should sample, as appropriate, one basic and one Military Aircraft Type Training course examination.

147.B.125 Maintenance Training Organisation approval certificate

The MTO approval certificate format shall be as detailed in Appendix II.

147.B.130 Findings

(a) Failure to complete the rectification of any level 1 finding within three days of written notification shall entail revocation, suspension or limitation by the NMAA, of the MTO approval in whole or in part.

(b) Action shall be taken by the NMAA to revoke, limit or suspend in whole or part the approval in case of failure to comply within the time scale granted by the NMAA in the case of a level 2 finding.

AMC 147.B.130(b) Findings

1. In the case of a level 2 finding, the NMAA may give up to 6 months' notice of the need for rectification. Dependent upon the seriousness of the level 2 finding(s), the NMAA may choose a notice period less than 6 months.

2. When the NMAA chooses to allow 6 months, the initial notification should be of 3 months' duration to the quality manager followed by the final 3 months' notice to the Accountable Manager.

SUBPART C - REVOCATION, SUSPENSION AND LIMITATION OF THE MAINTENANCE TRAINING ORGANISATION APPROVAL

147.B.200 Revocation, suspension and limitation of the Maintenance Training Organisation approval

The NMAA shall:
(a) Suspend an approval on reasonable grounds in the case of potential safety threat; or

(b) Suspend, revoke or limit an approval pursuant to EMAR 147.B.130.

**Appendix I - Basic Training Course Duration and Minimum Practical Training Hours**

1. The duration and minimum number of practical training hours to be completed on a basic training course shall be as follows:

<table>
<thead>
<tr>
<th>Basic Course</th>
<th>Duration (Theory) (See Note 1)</th>

**Notes:**

1. To be specified by the NMAA (if req’d).

2. These are the minimum practical training hours required for an individual to be able to claim reductions in the experience requirements as detailed in EMAR 66.A.30(a)1(iii) and EMAR 66.A.30(a)2(iii).

**Appendix II - Maintenance Training Organisation Approval**

EMAR Form 11 is contained in the EMAR Forms document.

**AMC to Appendix II to EMAR 147 “Maintenance Training Organisation Approval”**

AMC to EMAR Form 11 is contained in the EMAR Forms document.
Appendix III - Examples of Training Certificates

1. Basic Training/Examination

The information contained within the example of a basic training certificate detailed below is to be used for recognition of completion of either the basic training, the basic examination or both the basic training and basic training examinations.

A training certificate shall clearly identify each individual module or sub-module examination by date passed together with the corresponding version of Appendix I to EMAR 66.

CERTIFICATE OF RECOGNITION

EMAR 147 APPROVED BASIC TRAINING COURSE OR BASIC EXAMINATION

This Certificate of Recognition is issued to:

[FULL NAME]

[DATE AND PLACE OF BIRTH]

By:

[MTO NAME AND ADDRESS]

EMAR 147 APPROVAL REFERENCE

a Maintenance Training Organisation approved to provide training and conduct examinations within its approval schedule and in accordance with the requirements of EMAR 147.

This certificate confirms that the above named person either successfully passed the approved basic training course(*) or the basic examination(*) stated below in compliance with the EMAR requirements:

[BASIC TRAINING COURSE(*)] AND/OR [BASIC EXAMINATION(*)]

[List of EMAR 66 Modules/Sub Modules/Date of Examination Passed]

Certificate Number:

Date: ..................................

Signed: ..................................

For: [MTO Name]

(*) - delete as appropriate

2. Military Aircraft Type Training

The information contained within the example of a Military Aircraft Type Training certificate as detailed below is to be used for recognition of completion of either the theoretical elements, the practical elements or both the theoretical and practical elements of the Military Aircraft Type Rating training course.

The appropriate references should be deleted as applicable and the course type box shall detail whether only the theoretical elements or the practical elements are to be recognised.
elements were covered or whether theoretical and practical elements were covered.

The training certificate shall clearly identify if the course is a complete course or a partial course (such as an airframe or powerplant or avionic/electrical or military specific systems only) or a difference course based upon the applicant's previous experience (e.g. A400M course for C295M technicians). If the course is not a complete one, the certificate shall identify whether the interface areas have been covered or not.

CERTIFICATE OF RECOGNITION
EMAR 147 APPROVED MILITARY AIRCRAFT TYPE TRAINING COURSE
This Certificate of Recognition is issued to:

[FULL NAME]

[DATE AND PLACE OF BIRTH]

By:

[MTO NAME AND ADDRESS]

EMAR 147 APPROVAL REFERENCE
a Maintenance Training Organisation approved to provide training and conduct examinations within its approval schedule and in accordance with the requirements of EMAR 147.

This certificate confirms that the above named person either successfully passed the theoretical (*) and/or practical (*) elements of the approved Military Aircraft Type Training course stated below and the related examinations in compliance with the EMAR requirements.

[MILITARY AIRCRAFT TYPE TRAINING COURSE(*)]

[START AND END DATES]

[SPECIFY THEORETICAL ELEMENTS OR PRACTICAL ELEMENTS]

Certificate Number:

Date: ..............................

Signed: ..............................

For: [MTO Name]

(*) - delete as appropriate

AMC to Appendix III to EMAR 147 "Examples of Training Certificates"

A Certificate of Recognition for an EMAR 147 Basic Training Course or Basic Examination should be issued after completion of either basic training, basic examination or both basic training and basic examination.
Some examples of cases where a Certificate of Recognition should be issued are the following:

- After successful completion of a full basic course in one MAML (sub) category including successful completion of the examinations of all the corresponding modules.
- After successful completion of a full basic course in one MAML (sub) category without performing examinations. The examinations may be performed at a different EMAR 147 MTO (this MTO will issue the corresponding Certificate of Recognition for those examinations) or at the NMAA.
- After successful completion of all module examinations corresponding to a MAML (sub) category.
- After successful completion of certain modules/sub-modules/subjects.

It must be noted that “successful completion of a course” (without the module examinations) means successful completion of the theoretical and practical training including the corresponding practical assessment.
APPENDICES TO AMC to EMAR 147

Appendix I - Maintenance Training Organisation Exposition (MTOE)

1. The following subject headings form the basis of the MTOE required by EMAR 147.A.140.

2. For standardisation purposes and to facilitate the production of the MTOE by the EMAR 147 Maintenance Training Organisation (MTO) NMAA recommends adoption of the following format for the MTOE. It is not mandatory to assemble the MTOE in this manner as long as a crossreference index is included in the MTOE as an Appendix and the Part 1 items remain in Part 1. The MTO should customize the document to suit their organisation and may add pages/paragraphs as necessary. Moreover, NMAAs may consider that the MTOE be provided bilingual (national language and English) for international purposes.

3. Part 2, 3 and 4 material may be produced as separate detailed manuals subject to the main MTOE containing the Part 2, 3 and 4 fundamental principles and policy on each item. It is then permitted to delegate the approval of these separate manuals to the senior person but this fact and the procedure for doing so should be specified in paragraph 1.10.

4. Where an MTO is approved in accordance with any other EMARs which require an exposition, it is acceptable to combine the exposition requirements by merging the Part 1 items and adding the Parts 2, 3 and 4. When this method is used, it is essential to include the cross-reference index of Part 4 item 4.3.

TABLE OF CONTENT

PART 0 - GENERAL ORGANISATION

0.1 List of effective pages
0.2 List of issues / amendments / record of revisions
0.3 Distribution list
0.4 EMAR 147 requirements cross-reference list

PART 1 - MANAGEMENT

1.1 Corporate commitment by the Accountable Manager
1.2 Management personnel
1.3 Duties and responsibilities of management personnel, instructors, knowledge examiners
and practical assessors
1.3.1 Accountable Manager
1.3.2 Training Manager
1.3.3 Quality Manager
1.3.4 Examiner
1.3.5 Instructor
1.3.6 Practical Assessor
1.4 Management personnel organisation chart
1.5 List of instructional and examination staff
1.6 List of approved addresses
1.7 List of contracted/tasked organisations as per EMAR 147.A.145 (d)
1.8 General description of facilities at paragraph 1.6 addresses
1.9 Specific list of courses and aircraft type examinations approved by the NMAA
1.10 Notification procedures regarding changes to the MTO
1.11 MTOE and associated manuals amendment procedure

PART 2 - TRAINING AND EXAMINATION PROCEDURES
2.1 Organisation of courses
2.2 Preparation of course material
2.3 Preparation of classrooms and equipment
2.4 Preparation of workshops/maintenance facilities and equipment
2.5 Conduct of theoretical training and practical training (during basic knowledge training and type/task training)
2.6 Records of training carried out
2.7 Storage of training records
2.8 Training at locations not listed in paragraph 1.6
2.9 Organisation of examinations
2.10 Security and preparation of examination material
2.11 Preparation of examination rooms
2.12 Conduct of examinations (basic knowledge examinations, type/task training examinations)
2.13 Conduct of practical assessments (during basic knowledge training and type/task training)
2.14 Marking and record of examinations
2.15 Storage of examination records
2.16 Examinations at locations not listed in paragraph 1.6
2.17 Preparation, control and issue of basic/type training course certificates
2.18 Control of contracted/tasked organisations

PART 3 - TRAINING SYSTEM QUALITY PROCEDURES
3.1 Audit of training
3.2 Audit of examinations
3.3 Analysis of examination results
3.4 Audit and analysis remedial action
3.5 Accountable Manager annual review
3.6 Qualifying the instructors
3.7 Qualifying the examiners and the practical assessors
3.8 Records of qualified instructors, examiners and practical assessors

PART 4 - APPENDICES
4.1 Example of documents and forms used
4.2 Syllabus and Training Needs Analysis (TNA) of each training course
4.3 Cross-reference index

Where a Part is not used it should be shown in the MTOE as Not Applicable.

0.2 List of issues / amendments / record of revisions
Example:
### 0.3 Distribution list

The document should include a distribution list to ensure proper distribution of the MTOE and to demonstrate to the NMAA that all personnel involved in the maintenance training have access to the relevant information. This does not mean that all personnel have to be in receipt of a MTOE but that a reasonable number of copies are distributed within the organisation(s) so that all personnel may have quick and easy access to it. Reference should also be made to the location of any e-copies of the MTOE.

Accordingly, the MTOE should be distributed to:

- the Operating Organisation's management personnel (if the MTO is part of an Operating Organisation),
- any relevant maintenance organisation (e.g. when MTO contract/task the practical type training,.) or MTO,
- the MTO's management personnel and any person at a lower level as necessary;
- and,
- the NMAA.

### 0.4 EMAR 147 requirements cross-reference list

The MTOE should contain a cross-reference list with an explanation as to where each EMAR 147 Section A requirement is addressed in the MTOE.

### 0.5 General information

This chapter should describe broadly how the whole organisation is organised under the management of the Accountable Manager.

---

### PART 1 MANAGEMENT

#### 1.1 Corporate commitment by the Accountable Manager

The Accountable Manager’s MTOE statement should embrace the intent of the following paragraph and this statement may be used without amendment. Any modification to the statement should not alter the intent.

This MTOE defines the organisation and procedures upon which the EMAR 147 MTO approval is based.
It is accepted that these procedures do not override the necessity of complying with any new or amended regulation published by the NMAA* from time to time where these new or amended regulations are in conflict with these procedures.

It is understood that the NMAA* will approve this MTO whilst the NMAA* is satisfied that the procedures and work standards are being followed. It is understood that the NMAA* reserves the right to suspend, vary or revoke the EMAR 147 MTO approval, as applicable, if the NMAA* has evidence that the procedures are not followed and the standards not upheld.

These procedures are approved by the undersigned and must be complied with, as applicable, whenever knowledge or practical training is being progressed under the terms of the EMAR 147 approval.

The undersigned fully accepts the duties and responsibilities of Accountable Manager as defined in paragraph 1.3.1 of this MTOE.

Signed ............................................
Dated .....................................

Accountable Manager and....................... (quote position)..........................
For and on behalf of......................... (quote MTO's name)........................

Note:
Where it states (NMAA*) please insert the actual name of the pMS' NMAA, for example, MAA,
DSAÉ, etc.

1.2 Management personnel

Accountable Manager ------------------------- (Insert Name)
Training Manager --------------------------- (Insert Name)
Quality Manager --------------------------- (Insert Name)
Examination Manager ----------------------- (Insert Name)
Other (as required) ------------------------ (Insert Name)

The Managers specified above are identified and their credentials apart from the Accountable Manager have been submitted on EMAR Form 4 to the NMAA.

Any changes to the above personnel shall be advised to the NMAA. Failure to do so may affect the status of the EMAR 147 approval.
1.3 Duties and responsibilities of management personnel, instructors, knowledge examiners and practical assessors

1.3.1 Accountable Manager

The Accountable Manager is responsible for:

- Ensuring that all instruction and examinations carried out by the MTO meet the standards required by the NMAA.
- Ensuring that the necessary finance, manpower resources and facilities are available to enable the MTO to perform the knowledge and/or practical instruction and examinations to which it is committed under the requirements of EMAR 147.
- Chairing the annual meeting of senior staff to review the overall performance of the MTO.
- Ensuring that during periods of absence, control will be maintained for administration purposes by (Insert name/position in MTO), who will accept full responsibility for all training issues and related decisions.
- The operation of (insert name of MTO) is efficiently managed and conforms to the requirements of EMAR 147 as stipulated by the NMAA.

Notes: (not for inclusion in the MTOE)

- Any additional duties and responsibilities within the MTO may be added or delegated provided they do not conflict with those above, which constitute the Accountable Manager's responsibilities under EMAR 147.
- The MTO should decide who will be responsible for liaison with the NMAA and show this in his/her terms of reference. If more than one person is nominated it must be clearly shown what each person is responsible for with, as a general rule, no overlapping of responsibility.

1.3.2 Training Manager

The Training Manager will undertake:

- The responsibilities of the nominated person at (insert name of EMAR 147 MTO).
- The duties and responsibilities of the EMAR 147 approved examiner during the absence of any nominated approved examiner(s).

The Training Manager will ensure that:

- The Accountable Manager is kept informed as to the state of compliance of the MTO with EMAR 147.
- The operation of (insert name of MTO) is efficiently managed and conforms to the requirements of EMAR 147 as stipulated by the NMAA.
- Sufficient staff with appropriate qualifications are selected, trained and developed, to plan, perform, supervise, examine and assess students as required.
- All necessary Airworthiness data published by the NMAA and Aircraft manufacturers as appropriate, is made available.
• All changes to the MTOE and associated manuals are notified immediately to the NMAA.
• The MTOE and associated manuals are amended as required.
• Knowledge examiners, instructors and practical assessors are fully trained and assessed regularly for competence and that all records pertaining to these personnel are kept up to date.
• Contracted/tasked staff including any part time staff conform to the requirements of EMAR 147 and the training procedures.
• Office accommodation and facilities are available appropriate to the management of the planned training and for the use of training staff.
• Staff development and update training is undertaken and recorded.
• That all approved courses and examinations are delivered to the standard and content at the required level of knowledge, as specified in EMAR 147.
• A working environment is provided appropriate to the tasks being undertaken.
• There are sufficient storage facilities, tools, equipment, materials and publications available to perform the planned practical tasks.
• Secure facilities are available for the storage of examination papers prior to the examination and for the storage of completed students answer papers.
• The interviewing of students prior to, during and on completion of the course is effective and without bias.
• Student and staff records are produced and stored in secure conditions.
• Any person to whom any of these responsibilities may be delegated is aware of current regulations.
• Corrective action is carried out for the findings of quality audits.
• The follow up and rectification of findings required to re-establish the required standards of training, examination or maintenance standards.
• That sufficient questions are available to produce the examination papers required to cover the syllabus in accordance with EMAR 66 Appendix II and III. If questions are utilised for progress tests they should not be used in the final examination.
• The security and validity of all examinations are in accordance with the requirements of EMAR 66 and EMAR 147.
• All examinations and assessment timetables are coordinated.
• Compliance with the examination question review procedures is as required by EMAR 66 and/or EMAR 147.

Notes:
This paragraph should emphasize that the nominated post holder for training is responsible to ensure that all training is carried out to an approved standard and describes the extent of his authority as regards his EMAR 147 responsibility.
These duties may be adjusted to suit the requirements of the EMAR 147 Approved MTO but should not detract from the particular requirements of EMAR 147 or EMAR 66.

1.3.3 Quality Manager

The Quality Manager has direct access to the Accountable Manager in the event of any reported discrepancy not being adequately attended to by the relevant person, or in respect of any disagreement over the nature of the discrepancy.

The Quality Manager is responsible for:

- Establishing an independent quality system to monitor compliance with EMAR 147 requirements.
- Assessing non-approved contracted/tasked MTOs working under the MTO quality system.
- Implementing a quality audit programme in which compliance with all training procedures is reviewed at regular intervals, and any observed non-compliances or poor standards are brought to the attention of the person concerned via his/her Manager.
- Proposing all corrective action necessary for eliminating non-compliance and ensuring that these corrective actions are initiated and when completed are efficient and meet their intended purpose.
- Requiring remedial action, as necessary, by the Training Manager or the Accountable Manager.
- The MTOE and associated manuals are amended as required.

Notes:

These duties may be adjusted to suit the requirements of the EMAR 147 approved MTO but should not detract from the particular requirements of EMAR 147 or EMAR 66.

It must be remembered that the quality audit system is required to be independent and where possible the Quality Manager and quality audit personnel should not be directly involved in the training process. Where for reasons of expediency it is necessary to utilize training staff, it would then become necessary for a second member of staff to be nominated to audit those functions performed by the Quality Manager.

Alternatively/additionally an external auditor acceptable to the NMAA may be contracted/tasked in order to ensure the required independence.

1.3.4 Examiner

The examiner is a nominated person who will determine the level of theoretical knowledge of the trainees on a particular module, element, or part thereof. The function may include the drafting and/ or the selection of questions (MCQs and Essays), the performance of the examination exercise itself for essay questions, the evaluation of the correctness of answers (except when correct answers are pre-determined) and the final judgment regarding the level of knowledge demonstrated by the trainee.
Note: Persons solely supervising an exam session consisting of pre-selected MCQ questions are not considered as examiners but are considered as support staffs (invigilators) and are therefore not subject to the knowledge and experience requirements but need to be trained to the examination procedure described in the MTOE.

The invigilation of examinations shall ensure that the conditions for examination comply with EMAR 66 Appendix II (for basic training) or Appendix III, paragraph 3 (for type training).

1.3.5 Instructor

The instructor is a nominated person who will carry out instructional duties for which he/she is qualified (type/basic training).

Additionally, the instructor can:

• Draft questions for examination banks for courses he/she is authorized;
• Undertake duties of invigilator where he/she is not involved in the instruction of that particular phase examination.

Note: The instructor is not necessarily the person involved into the drafting of the course material (content, duration etc...), however he must be involved at some point into the organization of the lessons themselves (creation of the instructor notes, slides, sequencing etc...).

1.3.6 Practical assessor

The practical assessor is a nominated person who will determine the level of practical knowledge/practical skills of the trainees on a particular module, element, or part thereof. The function may include the drafting and/or the selection of practical tasks and shall include the performance of the practical assessment itself, and the evaluation of the practical abilities on the tasks covered by the assessment.

1.4 Management personnel organisation chart

A flow chart should provide a comprehensive understanding of the whole MTO. It should give further details on the management system and should clearly show the independence of the quality monitoring system, including the links between the Quality Assurance department and the other departments. This flow chart may be combined or subdivided as necessary, depending on the size and the complexity of the MTO.

Note: The MTOE must also define who deputises for any senior person in case of lengthy absence.

1.5 List of Instructional and Examination staff

This paragraph should give broad figures to show that the number of people dedicated to the performance of the approved training activity is adequate. It is not necessary to give the detailed number of employees of the whole MTO but only the number of those involved in training.

This could be presented as follows:
<table>
<thead>
<tr>
<th>Appointment</th>
<th>Name</th>
<th>Competencies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Training Manager</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Deputy Training Manager</td>
<td></td>
<td>enter here those areas each person is qualified to instruct using EMAR 66 module/sub-modules</td>
</tr>
<tr>
<td>Quality Manager</td>
<td>Examiner</td>
<td>OR</td>
</tr>
<tr>
<td>Examiner/Instructor</td>
<td>Instructor</td>
<td>type of aircraft and the specific areas he/she is qualified to instruct i.e. Airframe, Engine, Electrical Instrument, Auto flight, Radio or Radar.</td>
</tr>
<tr>
<td>Instructor</td>
<td>Instructor/Invigilator</td>
<td></td>
</tr>
<tr>
<td>Invigilator</td>
<td>Practical assessor</td>
<td></td>
</tr>
</tbody>
</table>

Notes:
According to the size and complexity of the MTO, this table may be further developed.

The EMAR 147 examiners are the only persons allowed to produce/select examination papers.

They may nominate other persons to mark completed examinations. The examiners and these persons should be other than the knowledge instructors involved in the instruction of that particular module/sub-module.

1.6 List of approved addresses

This paragraph should list those address(es) at which instruction and/or practical training are to be carried out for the duration of the EMAR 147 course.

The names, address(es) and approval numbers of any proposed EMAR 145 AMO at which it is proposed to carry out student practical training in order to fulfil the requirements of EMAR 147 may be kept in another document or procedure and cross referenced here.

1.7 List of contracted/tasked organisations as per EMAR 147.A.145(d)

This paragraph should list those address(s) at which training beyond the capacity of the EMAR 147 MTO may be carried out.
EMAR-66 Modules 1 to 6 inclusive and 8 to 10 inclusive may be contracted/tasked to organisations not specialised in aircraft maintenance and where the EMAR 147.A.200 practical training element does not apply.

1.8 General description of facilities at paragraph 1.6 addresses
Include here the facilities such as desks, chairs, lockers, overhead projectors, other teaching aids, etc for each of the offices, classrooms, practical training workshops and examination rooms provided.

1.9 Specific list of courses and aircraft type examinations approved by the NMAA
This paragraph must contain a list of the EMAR 147 course(s) for which approval is held. This should also include 'Differences' courses.

1.10 Notification procedures regarding changes to the MTO
Include here any cross references to the intended procedures for continued validity of the approval in compliance with the requirements of EMAR 147.A.155.
The MTOs 'nominated person' is responsible for informing the NMAA of any proposed changes.
(Ref Part 1-Management, paragraph 1.3.2 of the MTOE as an example)

1.11 MTOE and associated manuals amendment procedure
Detail here or cross refer to the procedures to be followed for the amendment of the MTOE and any associated procedures and or documents.

PART 2 TRAINING AND EXAMINATION PROCEDURES

2.1 Organisation of courses
In this paragraph the MTO should detail the procedures in place in order to organise the courses and to ensure that all necessary means are available to deliver in good conditions and by appropriately qualified staff all the course elements as required by the EMAR 66 syllabus. Such procedures may include a formalised review of the availability of required appropriate training rooms, materials, STDs, specialists. and resulting in training programme.

2.2 Preparation of course material
Training material should meet the requirements of EMAR 66. It should also state how the approved MTO produces a course for a new aircraft
type (new approval scope). This would typically include the production of the Training Needs Analysis and eventually a training programme for the new aircraft that has to list what is being taught, to what level and for how long. Once completed, this should be sent to the NMAA for review and approval of the course. This list must be given a unique reference number and revision status. In order to get the course approved a set of multi-choice questions and a copy of the course notes used by the student must also be submitted.

The course notes must reflect the training programme and be given the same reference number and revision status. This may cross refer to a separate procedure in which details of how the standard course lecture notes are produced which would include content, indexing, chapter and page numbering, font, etc, in the 'House Style'.

This same procedure should also be utilized to list the responsibilities by EMAR 66 module/submodule for the production, review & amendment of lecture notes.

Include cross references to any procedures used for the inclusion of other course material, e.g. Aircraft Manuals, and/or Standard Text Books used for note preparation and available to students as reference material.

2.3 Preparation of classrooms and equipment

Cross reference to any procedures for the preparation of classrooms and reporting of faults to any classroom equipment, general maintenance procedures and the control of the teaching environment.

2.4 Preparation of workshop/maintenance facilities and equipment

Cross reference to any procedures for the reporting of faults to any workshop equipment, general maintenance procedures and the control of the teaching environment.

Cross reference to procedures for the ordering and storage of aircraft materials used in the production of practical tasks, and for the ordering and acquisition of any new equipment required to complete the tasks.

Cross reference to the procedures for ensuring that all test equipment and/or tooling requiring calibration are correctly forecast and expedited.

2.5 Conduct of theoretical training and practical training (during basic knowledge training and type/task training)

Describe the method utilized in teaching the Basic/Type knowledge and practical training courses for which the MTO is approved.

Cross refer to the low level document referred to in 2.1 above.

2.6 Records of training carried out

Cross refer to procedures for the production, maintenance and security of student files.
These should include details of all student attendance’s, final knowledge examinations, practical assessments and any re-examination carried out and their results by EMAR 66 complete module/sub-module for basic training courses and for type training, information of those courses completed, their content and at which levels they were instructed and examined.

There should also be reference to the basic work experience’ records required to be kept by the student whilst he is undergoing his live operating aircraft experience.

The use of an "Aircraft Maintenance Engineers Log Book" is a good example.

### 2.7 Storage of training Records

Cross refer to procedures for the storage of staff and student’s records.

As a minimum, the procedures shall describe which are the documents that are recorded, the means that are used for recording and how long the records will be kept. These may be electronically based provided that adequate safeguards are in place to prevent unauthorised access and alteration.

### 2.8 Training at locations not listed in paragraph 1.6

Should the Management wish to contract/task part of the practical training, control procedures must be in place. These procedures should effectively reflect those of the NMAA in auditing the EMAR 147 MTO.

Any training carried out at address not listed at 1.6 above must be approved by the NMAA and control procedures must be in place to ensure that the proposed contracted/tasked organisation is in compliance with the requirements of EMAR 66 & EMAR 147.

A contract must be in place with the proposed organisation in which it is agreed that access is granted to the NMAA for the purpose of audit.

Note:

The “APPLICATION TO CONDUCT TRAINING/EXAMINATIONS* AT A LOCATION REMOTE FROM THE EMAR 147 APPROVED SITE” Form should be annexed to the MTOE.
2.9 Organisation of examinations

For Military Aircraft Maintenance Licence (MAML) course a high-level document detailing the course examinations, when each EMAR 66 module/sub-module is to be examined and to what EMAR 66 level. This should include the knowledge, practical training elements and how the number of hours of each comply with the percentage requirements of AMC EMAR 147A.200.

For aircraft type training, the course syllabus should be used to prepare an examination schedule. The examination schedule should detail the examinations to be set at the end of each major phase within the syllabus. A final examination should be conducted at the end of the type training course. The final examination should be recorded. Refer to EMAR 66 Appendix III, paragraphs 4.1.

2.10 Security and preparation of examination material

For MAML courses detail the preparation and security of Examination papers. Number of Questions and Timing must be in accordance with EMAR 66 Appendix II.

Cross reference to procedures for the production of examination questions, their validation and security of the data bank.

For type training it is sufficient to detail the preparation and security procedures in place for the production and storage of examination papers.
2.11 Preparation of examination rooms

Cross refer to procedure to be followed by the examiner and Invigilator in preparing the examination room for examinations.

An invigilator's ready reference sheet for briefing the candidates prior to the examination should be available in procedures and cross referenced here.

2.12 Conduct of examinations (basic knowledge examinations, type/task training examinations)

A procedure should be in place to define how the MTO manage the conduction of examinations in respect of the EMAR 147.A.135. The procedure should define responsibilities for the conduct and monitoring of the examination, and the instruction for the performance of the examination such as:

- information about the examination type (number of questions, type of questions, topics, maximum duration,...)
- information about the conduct of the examination (format of the responses, distribution and collating of copies, login if electronic systems,...)
- information about rules to be respected (communication, utilization of documents/means/personal objects,...) and measures to be taken in case of someone found cheating.

The minimum conditions to be authorized to monitor an examination should also be described.

It is recommended that examination papers of candidates should be identified through an anonymous system (e.g. numbering system,...) to be described in the MTOE.

A procedure should be in place for checking that all the pages of each examination paper are complete at examination completion and that all examination papers are accounted for.

Both the written element and the multi-choice question elements should be marked to 75% with no penalty marking. Ref EMAR 66 Appendix II.

Nothing other than the actual examination/answer paper is permitted to be on the candidate's desk.

All wall charts and/or other visual teaching aids should be removed from the examination room.

2.13 Conduct of practical assessments (during basic knowledge training and type/task training)

Cross refer to procedures used for assessment of student hand skills, and the standard tasks set throughout the course. A set number of mandatory tasks should be assessed to have been completed to a satisfactory standard.
2.14 Marking and record of examinations
A procedure should define how and by whom an examination is corrected, how and by whom is the examination result validated, how the examination result is transmitted to the student and under which format the examination is recorded.

Cross refer to procedures for the marking of completed examination papers and the recording of results.

Cross refer to a procedure for practical assessments and recording of results.

2.15 Storage of examination records
A procedure should define as a minimum which are the documents that are recorded, the means / systems / storage locations that are used to ensure a retention period of 20 years.

Electronic means of storage may be utilized as required, provided the appropriate computer security systems are in place.

2.16 Examinations at locations not listed in paragraph 1.6
Cross refer to the control procedure in common with part 2.8 above. This location must comply with the requirements of 2.10, 2.11, 2.12, 2.13, 2.14 and 2.15 above.

Consideration is needed for the security/control of examinations and their completed examination papers and/or practical assessment results.

2.17 Preparation, control and issue of Basic/Type training course certificates
The procedure for issuing training certificates should define the responsibility for verifying the data, the procedures for issuing and archiving the certificates and the authorised signatories.

The certificates should be prepared to reflect that illustrated in EMAR 147 Appendix III and tightly controlled prior to issue, with a system in place to ensure that each copy is numbered as part of a sequence and recorded as issued to a candidate by name.

2.18 Control of contracted/tasked organisations
When contracted/tasked organisations are defined in §1.7, it is necessary to define how and how often these contracted/tasked organisations are controlled in terms of training and examination/evaluation and means in place.

Cross refer to procedures for the control of contracted/tasked organisations as appropriate.
PART 3 TRAINING SYSTEM QUALITY PROCEDURES

3.1 Audit of training
The approved MTO should develop a form/audit checklist to be used by the auditor that would demonstrate that all the requirements of EMAR 147 have been reviewed during the audit process. The audit plan should indicate applicability of the various activities to be monitored and more than one list may be necessary (rolling audit). Each list should be shown against a timetable to indicate when the particular item is scheduled for audit and when the audit was completed. A complete audit of the EMAR 147 MTO must be completed every 12 months.

For courses and depending on the approval scope (Basic and/or Type) at least one basic and/or type, theoretical and practical course should be audited each year.

Cross refer to the various procedures required for quality auditing, reporting findings and levels with any corrective actions required.

A management control and follow up system must also be in place and may not be contracted out.

Cross reference to any quality procedures manual if available is permitted, but this system must relate to and make reference to the relevant EMAR 147 requirements.

3.2 Audit of examinations
Must be audited annually but may be part of the rolling audit procedure.

3.3 Analysis of examination results
Examination results should be analyzed on completion of each examination and any questions amended as necessary. Cross refer to procedures detailing responsibilities.

3.4 Audit and analysis remedial action
Cross refer to procedures for the reporting of findings and for corrective actions.

3.5 Accountable Manager annual review
At least once a year a review of the activities must be made by the Accountable Manager. Points discussed on a set date should include:

Projects requiring financial support:
- Sufficient staff employed to meet foreseen training program.
- EMAR 147 MTO review.
- Examinations and assessments.
- Student achievements.
• Student support.
• Quality Assurance review.
• Continuous improvement opportunities.

3.6 Qualifying the instructors

List of acceptable staff qualifications:

Include procedures for the induction of inexperienced instructors as required.

Where relevant include procedures for the employment of part time or contract instructors. All staff should have an appreciation of the contents of EMAR 66 and EMAR 147.

Cross refer to the list of present staff/qualification.

Note: staff employed prior to EMAR 147 application who's qualifications were previously acceptable, will continue to be accepted.

Cross refer to procedures for staff development.

3.7 Qualifying the examiners and the practical assessors

Examiners should have a full understanding of all the requirements of EMAR 66 and EMAR 147. Cross refer to procedures for staff development.

Cross refer to the list of staff/qualifications.

Practical work assessors should be assessed as being competent in accordance with an approved process.

3.8 Records of qualified instructors, examiners and practical assessors

The MTO must maintain a record of all training staff which must include details of the scope of their authorisation.

Training staff must be provided with evidence of the scope of their authorisation.

The following minimum information should be kept on record in respect of each instructor, examiner and practical assessor:

• Name
• Date of Birth
• Personnel Number
• Experience
• Qualifications relevant to the approval scope
• Training History (before entry)
• Training (basic training, type training, continuation training)
• Scope of activity
• Date of first issue of the authorisation
• If appropriate - expiry date of the authorisation
• Starting date of employment

The records may be kept in any format (hard copy or computer based) subject to the appropriate security requirements.

Persons authorised to access the system should be maintained at a minimum to ensure that records cannot be altered in an unauthorised manner or that such confidential records become accessible to unauthorised persons.

The training staff should be given reasonable access on request to his/her own records.

The authorisation document should be in a style that makes its scope clear to training staff and any authorised person that may be required to review the document. Where codes are used to define scope, an interpretation document should be readily available.

Training staff are not required to carry the authorisation document at all times but should produce it within a reasonable time of a request from an authorised person. Authorised persons, apart from the MTO’s quality department must include NMAA.

Any member of the NMAA is classed as an authorised person when investigating the records system for initial and continued approval or when the NMAA has cause to doubt the competence of a particular training staff.

PART 4 APPENDICES

4.1 Examples of documents and forms used

This section should include examples of all documents and forms used by the MTO in the conduct of its EMAR 147 function.

Some examples are listed below:
• Student attendance record
• Course certificate(s)
• Certificate(s) of training
• Classroom plan (exam purposes)
• Course critique
• Course results
• Course design/change plan
• Exam answer sheet
• Exam results
• Internal audit procedure
• Internal audit schedule
• Internal audit report
4.2 Syllabus and Training Needs Analysis (TNA) of each training course

This section should contain the syllabus for each NMAA approved course and should also contain the associated Training Needs and Analysis.

4.3 Cross-reference Index

If applicable - self-explanatory.

Appendix II - EMAR Form 4

EMAR Form 4 is contained in the EMAR Forms document.

Appendix III - EMAR Form 22

EMAR Form 22 is contained in the EMAR Forms document.

Appendix IV - EMAR Form 12

EMAR Form 12 is contained in the EMAR Forms document.
This SE-EMAR 147 describes the special provisions to be met by an organisation applying for an approval as a Maintenance Training Organisation (MTU) to conduct training and examination as specified in EMAR 66.

This SE-EMAR 147 is a consolidated issue including the requirements, acceptable means of compliance (AMC) and guidance material (GM).
